ILLUMINATION

A

Linear

Linear Flex High Output

Our most popular and versatile product to date, the Linear Flex HO is architecturally friendly and entirely flexible! It can hug any curve or straight edge, and do it discreetly. Great for under-bar usage, handrail highlighting—let the Flex create any mood you desire!

B

Highlighting

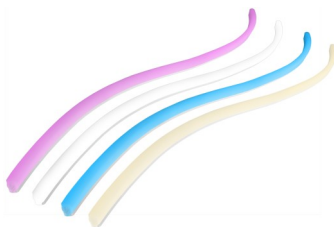

Glow

Guide your patrons into a new world - one that is discreet but also evocative, with The Glow! Perfect for hallways, lobby areas, outdoor decks, balconies, stairwells and rooftops, the Glow adds a touch of class and style to your space.

C

Direct View

SmartLed Flex

The SmartLed Flex is a hospitality must-have, embracing both innovation and state of the art design. This groundbreaking direct-view fixture can be used for both indoor and outdoor applications.

D

Flood Lighting

40W Power Floodlight

The 40W Power Floodlight is directional, versatile and beautifully designed. Not only does it offer high brightness but does so in an exceptionally sleek and compact body. Perfect for wall washing your building's exterior, illuminating your signage, as well as lighting small to medium-sized parking lots.
